

Strengthening Families in Recovery

Support for pregnant and postpartum women, as well as mothers with children, residing in recovery house or participating in an outpatient substance use treatment program.

The Department of Health Recovery Community Support Services can help you with:

Personalized Support: Tailored help for finding the right resources.

Resource Connection: Access to local services and programs.

Guidance: Step-by-step assistance for effective use.

Family-Focused: Solutions for your family's needs.

Confidential: Private and respectful support.

Assistance from individuals with shared experiences and personal recovery success.
